The first thing I did was to go to the bank and get some money. I then went to the post office and sent a letter to my mother. I then went to the store and bought some food. I then went to the school and saw the teacher. I then went to the hospital and saw the doctor. I then went to the court and saw the judge. I then went to the prison and saw the guard. I then went to the factory and saw the worker. I then went to the office and saw the clerk. I then went to the library and saw the librarian. I then went to the museum and saw the curator. I then went to the park and saw the children. I then went to the beach and saw the surfers. I then went to the mountains and saw the hikers. I then went to the desert and saw the camels. I then went to the city and saw the people. I then went to the country and saw the farmers. I then went to the sea and saw the ships. I then went to the sky and saw the planes. I then went to the earth and saw the rocks. I then went to the sun and saw the rays. I then went to the moon and saw the craters. I then went to the stars and saw the galaxies. I then went to the universe and saw the everything.
